

Be vocal for your own dream dairy at a locality of your choice

Dear entrepreneurs,

The whole world is undergoing reformatting and so is true with consumption and consumerism related to dairy products. All of you had a dream of setting up your own dairy venture. I think you will never get a chance better than this to make that dream a reality. COVID-19 has shown the resilient power of dairy as a sector. Not only organized sector large dairies but the dairy farms with supply chain to the last mile have seen an upsurge in demand and profits both. India is poised for the conversion of demand of unpacked milk and milk products into processed and packed dairy products after COVID-19. In the next 5 years, we anticipate organized sector share to be around 70 % of the total surplus milk, which is at hardly 28-30% today.

We at Suruchi Consultants are always delivering value to you by constantly conducting training, masterclasses, events, publications, etc. Now we are conducting the same through online platform. In order to help you to at least understand the financial structure of your dream dairy project, we have launched a very special package as follows. This package is for developing a draft project pre-feasibility reports for your dream dairy project based on NABARD guidelines. As a contribution from our side, we are not only offering a special package for developing these pre-feasibility reports but also absorbing 18% GST.

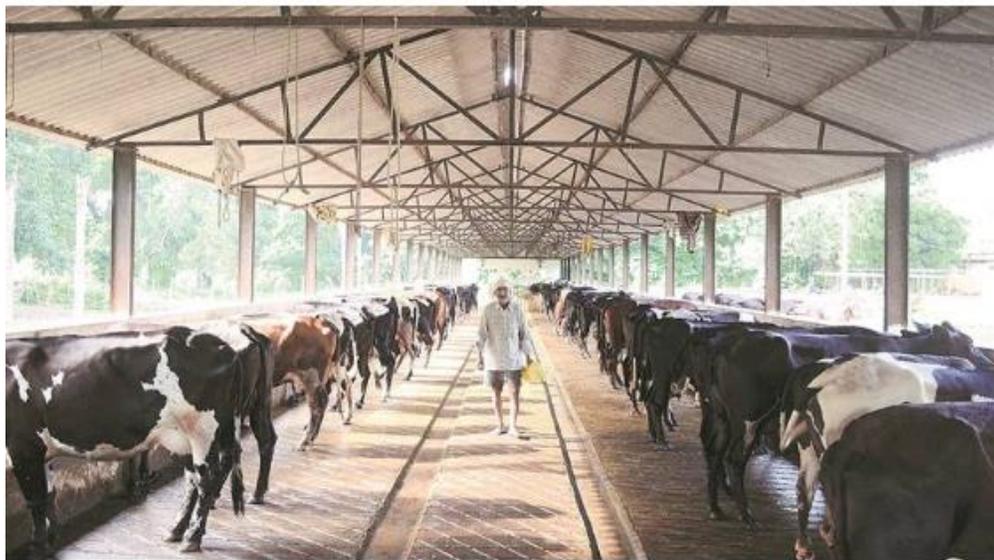

We can go to any extent to making your dream a reality. Now choose from the following options for your desired project and capacity and instantly book your report. We shall be taking 4-6 weeks to deliver you the soft version of the report. However, it will also depend upon how quickly you share the desired information on various inputs at your actual location with us. We shall be sending a checklist instantly after you book your report at the given link below.
